Our timeline

How we operate

Altea Green Power: a solid partner for your investment

We carry out a preliminary constraint analysis and a strong due diligence. We proceed with negotiation and closing of preliminary land agreement. We take care of the energy connection requests (STMG or TICA).

We carry out preliminary and executive engineering necessary to obtain the final authorization.

We take care of the whole authorization procedure.

UPDATES 2024

Updates 2024

Approved new 2024-2028 Business Plan.

Co-development agreement for "BESS Storage" of 1.1 GW with a major North American investment fund.

During 2024 AGP has scheduled the **permitting processes with application through MASE** for approximately 2 GW of projects.

Started the **process of listing** the Company on the **Euronext Milan regulated market**, and potentially, on the **Euronext STAR Milan** segment.

Updates 2024

Dxor Investments S.r.I. has completed the **sale of 750,000 ordinary shares** of Altea Green Power S.p.A, that represent **4.33**% of the Company's share capital, through an Accelerated Bookbuilding, at a price per share of € **6.70**.

Giovanni di Pascale has purchased **1,080,000 ordinary shares** of Altea Green Power S.p.A., representing **6.24%** of the share capital, from shareholder Cecilia Martucci.

AGP's BoD appointed its **endoconsiliar committees** and made additional resolutions aimed at **aligning the Company's governance with the best practice** of companies admitted to listing on Euronext Milan.

A request for approval of the **Prospectus** has been filed with CONSOB regarding admission to trading of the ordinary shares and "Warrant Altea Green Power 2022-2024" of the Company on the **Euronext Milan market**, if the conditions are met, **Euronext STAR Milan segment**, organized and managed by Borsa Italiana.

Current assets		
Current assets	40,669	32,400
Other current assets	2,512	2,613
Cash and cash equivalents	4,173	502
Total current assets	47,354	35,516
Total Assets	49,985	38,215
Shareholders' Equity	22,715	17,444
Non-current liabilities	4,406	3,725
Current liabilities	22,864	17,047
Total Liabilities and Shareholders' Equity	49,985	38,215

NFP

€/000

_	1H2024	1H2023
A. Cash	(4,173)	(502)
B. Cash equivalents and cash	-	-
C. Other current financial assets	-	-
D. Liquidity (A + B + C)	(4,173)	(502)
E.Current financial debt (including debt instruments, but excluding the current portion of non-current financial debt)	509	881
F. Current part of non-current debt	1,821	1,059
G. Current financial debt	2,330	1,940
H. Net current financial debt (G+D)	-1,844	1,438
Non-current financial debt (excluding current portion and debt instruments)	3,178	2,932
J. Debt instruments	-	-
K. Trade and other non-current payables	4	9
L. Non-current financial debt (I+J+K)	3,182	2,941
M. Total financial debt (H+L)	1,338	4,379

Total Net Financial Debt stood at € 1.3 million (cash negative) versus € 4.4 million (cash negative) at 31 December 2023.

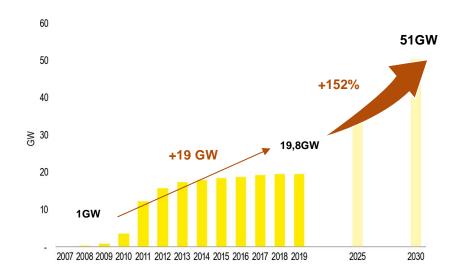

It should be noted that the application of accounting standard IFRS 16, resulted in an upward reclassification of financial debt. Based on OIC accounting standards, it would have been € 0.6 million at 30 June 2024 and € 3.6 million at 31 December 2023.

The change from the prior year is related mostly to the proceeds from the sale of shares in the subsidiaries Green BESS S.r.l. and Blue BESS S.r.l..

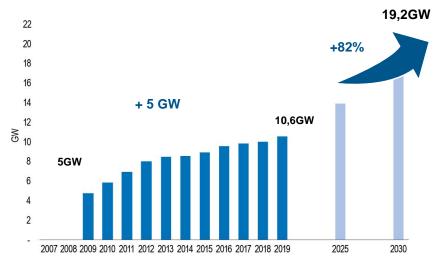

MARKET

The Italian Market: Solar and Wind Power

SOLAR

- Since 2009, 20 GW of solars have been installed. In the next 10 years these
 investments are expected to more than double (+152%), reaching a total
 cumulative power of 51 GW.
- With the development contracts currently in place (about 300 MW), Altea's market share will be about 2% of the market in the next 5 years.

WIND

- Since 2009, 11 GW of wind power have been installed. In the next 10 years these investments are expected to almost double (+82%), reaching a total cumulative capacity of over 19 GW.
- With the development contracts currently in place (about 300 MW), Altea will intercept about 7% of the market in the next 5 years.

BESS Storage Market in Italy

Our strategy:

Growth in the «new» Bess Storage market with a short term target of 2/3 GWh

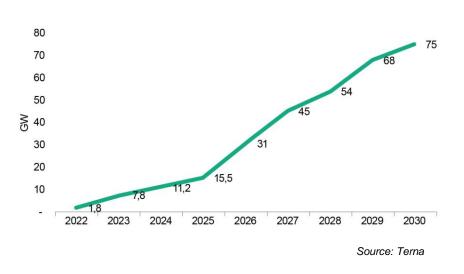

Present status:

Signed contracts for 1.6 GW Availability of suitable sites for 1.8 GW Connection (STMG) in the approval process for 1.8 GW

High-potential market, strictly related with solar and wind growth

BESS STORAGE MARKET TREND IN ITALY

The Battery Energy Storage market, in Italy, is projected to grow at 9.3% per year

BESS Storage Market in U.S.A.

Our strategy:

Joint Ventures with a local partner with an important track record in developing green energy projects

Our target:

1.4 GW in the next 3 years

Present status:

Land availability for over 800 MW
Connection under approval process, for Lund storage project, with Texas State Grid (ERCOT) for over 507 MW
Project will be on market in Q4 2024
Non-recourse loan, for 15M\$, signed with Lay line for financing the USA Growth

Market Scenario

The global battery energy storage market in U.S:A. is projected to grow from \$10.88 billion in 2022 to \$31.20 billion by 2029, at a **CAGR of 16.3%** in forecast period

BUSINESS PLAN 2024-2028 UPDATE

Business Strategy

Consolidation of AGP's position as a player in the sector of the development of Storage BESS projects in Italy with a market share of no less than 10%.

Ongoing **US** development* in both the Storage and Mixed Solar sectors, and through new joint ventures in which AGP holds a majority position.

11

Growth of the Industry component through the development and subsequent construction and management of PV plants owned in Italy (projected to reach 90 MW in the five-year period and, in the medium-long term, an installed power of over 250 MW).

ESG compliance with the new CSRD regulation. Centrality of ESG options in the Company's management logic.

*It should be noted that, cautiously, the Business Plan update does not take into account the Group's entry into the U.S. market, which is still in its embryonic stage.

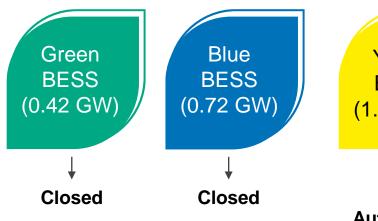

Focus projects under development in the years ahead

	1-2024	2028	delta
Italy MW	980	5,040	4,060
Wind and Photovoltaic in authorization process	440 <i>44</i> 0	1,130 <i>710</i>	690
Storage Italy in authorization process	510 <i>510</i>	3,820 3,310	3,310
PV owned by AGP	30	90	60
Storage USA in authorization process	113 113	600 <i>4</i> 87	487

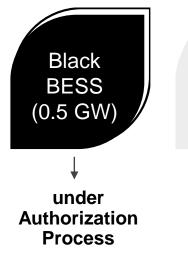

Over the years of the plan, an increase in projects to 4.1 GW is expected, mainly in the Bess Storage business.

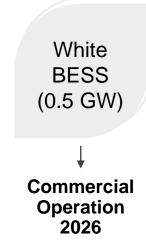

The construction of at least 90 MW of PV plants is also expected within the last year of the plan.

Focus Projects BESS Storage

The BESS Storage
Projects included in
the plan, with the
exception of White
Bess, are all under
development in both
the commercial and
authorization
process.

2024-2028 Financial Targets Update

This update was required in light of the Company's recent adoption of IFRS

- The economic targets presented in the update of the 2024-2028 Business Plan are in some cases substantially in line, in others slightly conservative compared to previous ones.
- On the **financial front**, the NFP 2024 is also modified in a more conservative sense and the NFP 2028, on the other hand, is amended in an improving sense.
- The **capex figure** aimed at developing owned plants is estimated at about € 43 million over the Plan period.

CH		\ N I	\cap	2024
